Pinnacle's Black Rhino Series is the ultimate in bass performance, designed to fill up even the largest rooms with thunderous deep bass. These subwoofers are the crowning achievement from Pinnacle's stellar engineering team, all of whom are musicians and know bass performance criteria first hand.

Pinnacle employs **massive drive units** to achieve bass down into the low 20 Hz range mated to Pinnacle's proprietary, ultra high powered amplifiers of watts for the maximum in SPL.

The Pinnacle Black Rhino subs feature dual woofers arranged in a bipole configuration for awesome, room-filling, deep and accurate bass from incredibly small, beautiful cabinets. Indestructible build quality with non-resonant 1" thick cabinets. Pinnacle uses 12 gauge internal wiring throughout for maximum bass clarity.
