

Only an 8" Cube!

SUBcompact 6

The World's Smallest Powered Subwoofer

**WARNING: DON'T LET THE SIZE FOOL YOU.
THIS TINY SUB PRODUCES GREAT BASS!**

Pinnacle engineers did it again! Housed in a cabinet approximately an 8" cube, the **SUBcompact 6** delivers deep, tight bass response down to 28 Hz in a stylish cabinet sure to please the most discerning eye. Ideal for apartments, condos, medium and small living areas where the subwoofer needs to be heard but not seen. The front firing configuration allows for placement in built-in wall units and other custom situations. For larger living areas, try our more powerful dual woofer designs, Subsonic or Baby Boomer with dual woofer configurations.
