## THEATER ONE 2.1

Premier 2.1 System, All In One Sleek Enclosure with Built-In TV Platform Fitting TVs 27" - 65"

**“Simply put, it’s a  
SOUNDBAR,  
POWERED SUBWOOFER  
and TV STAND all in one.”**

**PINNACLE  
PATENTED  
TECHNOLOGY**

Accommodates TVs up to 65"

**Pinnacle Hits a “ WHOLE-IN-ONE ” With  
a 1-cabinet solution transforming your flat panel TV into a full home theater!**

**▶ SINGLE SPEAKER CABINET SOLUTION**

Your beautiful flat panel TV is acoustically challenged and finally, there is a solution: Pinnacle’s new **THEATER ONE 2.1**. This one cabinet solution blends seamlessly into your living space revealing all the sounds you’ve been missing.

**▶ FAST 5 MINUTE SET UP AND BUILT IN TV PLATFORM**

With Pinnacle’s new **THEATER ONE 2.1** there is no need to “make room” for your new home theater system. There is 1 box, 1 TV, 1 simple connection. Place your flat panel TV right on top of the **THEATER ONE 2.1**, connect one cable (included), plug it in and you're done!

**▶ MP3, SMART PHONE, TABLET, LAPTOP COMPATIBLE**

Now you can connect your entire music library from any popular source, such as MP3 players, smart phones, tablets, laptops, etc.

**▶ REMOTE CONTROL & REMOTE LEARNING INCLUDED FOR YOUR CONVENIENCE**

Now with just the push of a button on the remote control (included) you can enjoy amazing home theater sound! And with SPECIAL REMOTE “LEARNING” capability, our product will conveniently work with your TV’s remote.

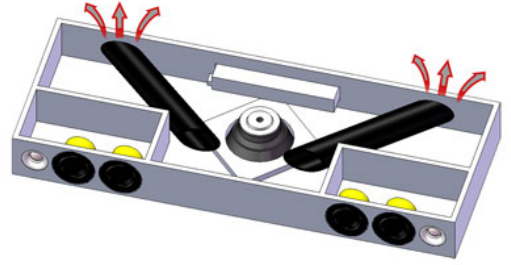

**Simple connection to your TV  
with just 1 cable, included.**

## ▶ UNBELIEVABLE ACOUSTICS WITH PINNACLE'S PATENTED BASS BLAST TECHNOLOGY

The **THEATER ONE 2.1** is far more than an enhancement for TV speakers. It's an all-in-one, self-contained, superior HOME THEATER SYSTEM.

The secret to the **THEATER ONE 2.1's** exceptional bass response is Pinnacle's patented Diaduct bass port technology which creates a massive air flow and deep, powerful bass from a heavy duty dual voice coil woofer. Pinnacle engineering has also used high powered, proprietary digital switching amplifiers to run cooler than traditional Class A/B amps. This technology results in a significantly enhanced bass response and provides nuanced, crystal clear sound for both dialogue and music. This combination results in fuller and more powerful bass all from just one slim cabinet.
